### Club Discounts

**Revel Outdoors** have asked us to make members aware of the following

- We are pleased to be continuing the **10% discount** on items bought in the store, including cycles, for club members.
- We are unable to offer this discount on items that have been discounted by more than 10% in a sale. This will be implemented over the next few weeks.
- There will no longer be a discount on the labour charge on workshop jobs. However, your members will still enjoy the **10% discount off parts used**. Again, this will be implemented over the next few weeks.
- In order to simplify our discounts and Revel Rewards points offer, we will cease giving Revel Reward points to club members, who will enjoy the 10% discount on most items instead. This is effective now.

If you could also remind your members that we are unable to give them the club discount if they are unable to prove that they are a member. There are unfortunately still those who seem to abuse the set-up.
